Patent Examiner

This Office action is in response to applicant's amendment received on 28 November 2005.

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Denise Bergin on 10 February 2006.

2. The application has been amended as follows:

**In the Claims:**

In claim 3, line 1, change the claim dependency from "claim 2" to --claim 1--;

Cancel claim 9;

In claim 10, line 1, change the claim dependency from "9" to --claim 1--;

In claim 11, line 1, change the claim dependency from "claim 9" to --claim 1--;

and

In claim 18, line 1, change the claim dependency from "claim 11" to --claim 12--.

3. A replacement drawing sheet corresponding to Fig. 5 was received on 28 November 2005. This drawing is acceptable.

4. Claims 1, 3-8, 10-39 are allowed.

5. The following is an examiner's statement of reasons for allowance:

- Claims 1, 3, 5-7, 10-11, 20-32 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of depositing a solid dielectric material on a substrate having gaps of dimension on the order of about 100 nm or less, that includes the step of selectively condensing a precursor of the solid dielectric material in narrow gaps where the precursor is liquefied from the vapor phase; and
- Claims 4, 8, 12-19, 33-39 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of depositing a solid material on a substrate having gaps of dimension on the order of about 100 nm or less, that includes the step of forming a liquid corresponding to a vapor phase precursor in at least some gaps, wherein the liquid remains in the gaps when the vapor phase precursor is at a partial pressure that is below its saturation pressure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
